PROFESSIONAL SUMMARY

Computer Science Engineering (AI) student with a strong academic record and hands-on experience in web development, AI/ML, and Data Structures & Algorithms. Completed internships at Infosys Springboard and KistechnoSoftware. Proficient in building scalable web applications and AI-powered tools. Active open source contributor with expertise in Python, Java, C++, and modern web technologies.

EDUCATION

Swami Keshvanand Institute of Technology (SKIT) Jaipur, India
B.Tech – Computer Science Engineering (AI) | CGPA: **9.68/10.0** 2024 – 2028

TECHNICAL SKILLS

Languages: C, C++, Java, Python
Web Technologies: HTML5, CSS3, JavaScript, Bootstrap, React
Database: MySQL, Supabase, Database Design, Query Optimization
AI/ML & Emerging Tech: Machine Learning, LLMs, Prompt Engineering, Streamlit, Deep Learning

SOFT SKILLS

Leadership | Time Management | Quick Learning Ability | Effective Communication

EXPERIENCE

AI/ML Intern Remote
Infosys Springboard Virtual Internship 6.0 Dec 2025 – Feb 2026

- Built an **AI Code Reviewer and Quality Assistant** leveraging LLM capabilities to automate code review, detect bugs, and provide quality improvement suggestions
- Designed intelligent feedback pipeline integrating static analysis with AI-driven recommendations for code optimization
- Gained hands-on experience with AI/ML frameworks, prompt engineering, and end-to-end project development

Open Source Contributor Remote
GirlScript Summer of Code Jul 2025 – Oct 2025

- Contributed to multiple open source repositories, improving functionality and resolving bugs across projects
- Collaborated with a global developer community using Git, GitHub, and agile workflows

Web Development Intern Inhouse
KistechnoSoftware Jul 2025 – Aug 2025

- Developed full-stack **Expense Tracker** application using HTML, CSS, Bootstrap, JavaScript, MySQL, and Supabase
- Implemented user authentication, transaction management, and automated financial reporting features
- Designed responsive UI and integrated database with backend logic for seamless data flow and storage

PROJECTS

SafeQR – QR Code Safety Scanner | *Python, Streamlit, Random Forest, OpenCV* 2026
🔗 github.com/jainab-bee/SAFE_QR_ML

- Built Streamlit web app to detect phishing/malicious URLs from QR codes using ML and rule-based analysis
- Trained Random Forest classifier on 8 URL features with multi-library QR decoding and fallback support
- Implemented UPI payment QR handling with safety scoring, confidence metrics, and per-check breakdown

Expense Tracker Application | *HTML, CSS, Bootstrap, JavaScript, MySQL, Supabase* 2025
🔗 github.com/jainab-bee/my_first_website

- Built responsive financial management web app with full CRUD operations and data visualization dashboards
- Designed database schema, optimized SQL queries, and configured cloud-based backend using Supabase

CERTIFICATIONS & ACHIEVEMENTS

- **Bronze Medal** – Secured **9.74 SGPA** in 2nd Semester, SKIT Jaipur
- **NPTEL** – Problem Solving Through Programming in C | *Elite* (2026)
- **NPTEL** – Programming in Modern C++ | *Elite* (2025)
- **Oracle Academy** – Artificial Intelligence with Machine Learning in Java (2026)
- **Forge (TCS)** – Cybersecurity Analyst Job Simulation (2025)
